

Price list catalogue

Valid until 12/2022

Well positioned in turbulent times

These are turbulent times! The effects of material shortages, rising energy and raw material prices can be felt everywhere. This is where our long-standing supplier relationships and forward-looking material planning pay off.

We have taken good precautions and can continue to guarantee short delivery times of 8-12 weeks.

However, we reserve the right to react with proportional material cost surcharges in the case of rising prices.

We thank you for your trust and hope together with you to an early relaxation of the situation!

The current price list is available via the QR code or via our website at:
